DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20 and 24-25 are drawn to a wire bonding apparatus, classified in class 156, subclass various.
- II. Claims 21-23 are drawn to a method of fabricating a packaged semiconductor, classified in class 228, subclass 110.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group II and Group I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used in attaching ornamental decorations in jewelry making.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

During a telephone conversation with Sam Tung on 6-1-05 a provisional election was made with traverse to prosecute the invention of Group II, claims 21-23. Affirmation of this election must be made by applicant in replying to this Office action. Claims 1-20 and 24-25 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Ex parte Quayle

This application is in condition for allowance except for the following formal matters:

Cancel nonelected claims 1-20 and 24-25.

Prosecution on the merits is closed in accordance with the practice under *Ex parte*

Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Claim Allowance

Claims 21-23 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not suggest or teach a method of fabricating a wire bonder, particularly the piezoelectric element used to break the wire via the bearing race.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
